DRIVING PERFORMANCE

Mercedes-Benz

Here it is – the statement from Affalterbach: long bonnet, cockpit positioned far back, wide and powerful rear end. These are the proportions of a sports car from Mercedes-AMG. Its instinct is to rush forward. The new Mercedes-AMG GT S.

HANDCRAFTED BY RACERS.

Here to thrill you.

Mercedes-AMG GT S.

Full of intent, even when stationary. The prominent wheel arches exude power. The pronounced waistline running along the entire side wall merges into muscular shoulders. Its supreme might is concentrated in the dynamic rear end and the 19-inch & 20-inch AMG 5-spoke light-alloy, all is waiting to pounce.

A detailed view of the front interior of a Mercedes-AMG car. The image shows the driver's and front passenger's seats, which are upholstered in black leather with red stitching and feature large, silver-colored side bolsters. The center console is visible, showing a gear shifter and handbrake. The dashboard and door panels also feature red stitching and silver accents. The overall aesthetic is sporty and luxurious.

AMG. Up close.

The cockpit. This car has the AMG DNA. The dynamic centre console rises gently up to the dashboard with the four striking air vents. Radically sporty. The rev counter registers every surge into a new power dimension with consummate precision. The AMG Performance seats offer perfect lateral support in every bend. Hands on the AMG Performance steering wheel, speeding the car along via the shift paddles – this is the true feel of the road. Tailor-made for feel-good vibes with extremely high-class workmanship, finest leather and carbon fibre. Hand-crafted character.
