01 Mercedes-Benz Bluetooth® (SAP¹) telephone module²

Experience a new dimension of web access, telephony and navigation support – with the combination of the Mercedes-Benz Bluetooth® (SAP) telephone module and your COMAND Online multimedia system. You can simultaneously talk on the phone, use Mercedes-Benz Apps and have your text messages read aloud. The telephone module ensures that COMAND Online has a fast, stable and reliable internet connection via the integral UMTS module and the direct link to the vehicle's external aerial.

The module is compatible with all COMAND systems from NTG4.5. From NTG5 you even have access to high-speed internet: the data transfer speed via the USB cable is up to 7x faster than a Bluetooth® connection!

The telephone module can be used as a permanently installed telephone and as a data modem. The module's gateway functionality allows parallel phone use – with all the functions of Convenience Telephony (Code 386): convenient operation via your multimedia system, hands-free functionality using the personal contact details on your mobile's SIM card and much more besides. When necessary, your mobile is charged via the USB port. The Bluetooth® (SAP) telephone module can either use your mobile's SIM card or a SIM card can be inserted directly into the module, for a connection that is independent of your mobile phone. Many mobile phone providers offer multi SIM cards for your existing contract.

¹ SAP (SIM Access Profile) allows the module to read your mobile phone's SIM card.

² Only in conjunction with Convenience Telephony (Code 386). For further information about the telephone module, software updates and a list of supported mobiles, go to www.mercedes-benz.com/connect and select Convenience Telephony.

02 Mobile-phone holders

When it comes to selecting a mobile phone for your Mercedes-Benz, you've never had so much choice. One "click" is all it takes to replace the mobile-phone holder. It takes a matter of seconds and is as straightforward as inserting the mobile into the holder itself. Changing your mobile and even alternating between different models of mobile no longer presents a problem. Enjoy the benefits of Convenience Telephony to the full.

Other advantages:

- Optimum reception quality as a result of using vehicle's external aerial.
- Mobile's battery is charged.
- Access to internal phone memory.
- Convenient operation using multifunction steering wheel.

Only in conjunction with Convenience Telephony (Code 386).

Holders are available for many current mobiles from:

Nokia:	6303, 6303i classic

01 AIR-BALANCE package

The interior of the vehicle can be fragranced individually to suit your tastes with the aid of the AIR-BALANCE package (optional extra Code P21). There are four high-quality fragrances to choose from, designed to suit your personal preferences and mood. The intensity of the fragrance can be adjusted in three stages. The quality of the air can also be enhanced by ionising the oxygen and filtering the outside air.

Flacon perfume atomiser, DOWNTOWN MOOD

Fragrance family: floriental, musk, fruity

Transparent, flowery combination of jasmine and lilac, with warm undertones of musk, ambergris and a cashmere note. Top notes include magnolia and rosewood for freshness, peach for softness and an intriguing metallic effect. A soft, sensual, atmospheric perfume with sex appeal.

Flacon, NIGHTLIFE MOOD

Fragrance family: woody, oriental, ambered

NIGHTLIFE MOOD is enriched with complementary wood notes that give the scent body. Cool spices such as cardamom and pink pepper give a freshness to the top notes. A trace of a certain aldehyde accord adds a subtle cognac effect. In the base notes the wood tones combine with frankincense, ambergris and vanilla to create a soft, silky elegance.

Flacon, FREESIDE MOOD

Fragrance family: citrus, flowery, tea

Citrus elements combine with tea at the heart of this perfume, which is rounded off elegantly with flowery top notes. The base notes include hints of cedar, patchouli and ambergris. Overall: very rounded and harmonious.

Flacon, SPORTS MOOD

Fragrance family: green, flowery, citrus

This perfume is based on a harmony of lime tree blossom and fresh, light-green leaves. The lime tree blossom at the heart of this perfume is surrounded by light, flowery tones such as magnolia, gardenia and violet. The green top notes take their freshness and lightness from aspects of grapefruit and watermelon, while the base notes have a mossy nuance.
