

# Model Car Selection 2016

Mercedes-Benz  
The best or nothing.

1:87

1:50

1:43

# Real passion always feels genuine.

Each individual miniature model from Mercedes-Benz is created with the same passion, creativity and **technical know-how** as its full-scale counterpart – over a development period of up to 18 months.

The aim is **100% accuracy** – from the vehicle design to the typical standard features. To help us achieve this, we can depend on cutting-edge CAD technology and the unflagging attention to detail of the many specialists involved. From determining the proportionally correct basic shape to painstakingly adjusting a windscreens wiper or an exterior mirror, the CAD engineers, designers and model makers work hand in hand – until even the smallest parts reflect the unmistakable design idiom of the original.

The dynamic sweep of a spoiler, the astute design of the ventilation grille, or the intricacy of the control elements in the cockpit – all of the things that make the original so captivating are **replicated in miniature**. It goes without saying that what applies to design and function also applies to the paintwork in **authentic shades**, with perfectly positioned light-catching contours.

Creating a Mercedes-Benz model car is not simply a matter of ‘miniaturising’ the full-scale model. These miniature masterpieces have to capture the huge emotional appeal of the brand. To discover the fascination and pure passion behind our coveted range of over **350 genuine Mercedes-Benz models**, simply browse through this brochure, or visit your Mercedes-Benz partner.

November 2015.

Please note: changes may have been made to the products since this brochure went to press (08/2015). The manufacturer reserves the right to make changes to the design, form, colour and specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. Colours may differ slightly from those shown in the brochure, owing to the limitations of the printing process. This brochure is distributed internationally. It provides a general indication of the range of models, features, optional extras and/or colours available in various countries. Some of the models, features, optional extras and/or colours shown may not be available in your country or may only be available in a different specification. Additionally some models, features, optional extras and/or colours may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras and/or colours available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.

Only available while stocks last.
